KOLLER WHIRL-SYSTEMS

WELCOME TO KOLLER WHIRL SYSTEMS!

MORE QUALITY OF LIFE, RELAXATION, AND SHARED MOMENTS – RIGHT IN YOUR OWN GARDEN!

Regeneration for Body and Soul

Imagine this: after a long day, you sink into the soothing warm water of your own whirlpool. The massage jets gently begin to ease your tense muscles while the stars twinkle above you. With a **SPA POOL from KOLLER**, this dream becomes your daily reality – whether in your garden, on your terrace, or in your private wellness area.

Austrian Quality with Tradition

As an Austrian manufacturer with decades of experience in the development and integration of whirlpool components, KOLLER stands for uncompromising **quality** and **first-class service**. Our SPA POOLS are crafted with the **utmost precision** in Austria – a promise of quality you can rely on. Thanks to in-house production, we also guarantee **long-term availability** of replacement parts.

Tailored Massage & Feel-Good Atmosphere

Precisely positioned massage jets relieve tension in the back, neck, shoulders, legs, and feet – ideal after exercise or a stressful day. Choose between water and/or air massage jets and set your perfect water temperature. Mood-enhancing **LED lighting** with color change or single-color options creates the ideal ambiance. Pamper your skin with the unique **Koller Milk** experience and feel reborn.

A Place to Connect

A spa pool is more than just wellness: it's a gathering place for family and friends, a space for shared moments and relaxed conversation. You decide how long to enjoy it – no appointments, no pressure.

Your Path to a Personal Oasis

With a Koller Spa Pool, you're investing in health, relaxation, and quality of life. Let our team advise you and find the model that perfectly suits your needs.

Contact us!

Koller Spa Pools – Wellness that comes to you.

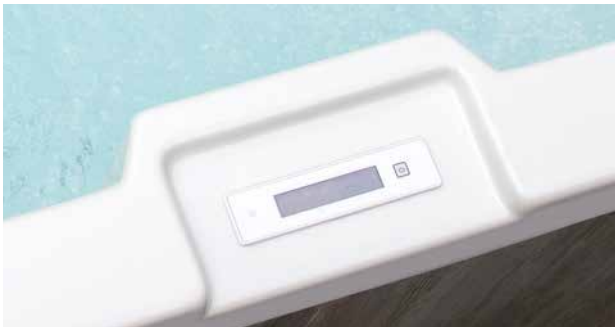

THE BENEFITS OF OUR SPAS

- **ALL OUR SPA POOLS** are built according to the requirements of the European standard **EN 17125**.
- **HIGH-QUALITY COMPONENTS AND TECHNOLOGY** - Produced and installed by a leading manufacturer of whirlpool technology.
- **GUARANTEED SERVICE PERFORMANCE**
  Within Austria, we offer reliable service for our POOLS.
- **SPARE PART SUPPLY**
  The components used come from **our own production** and are thus available over the years.
- **100 % EMPTIED. 100 %WINTER-PROOF**
  Thanks to the specially designed **residual water draining**, possible water damage can be averted during winterization.

- **„POOLMASTER“ - SPA CONTROL** made easy through **a water-resistant touch screen**.
- **STARTER SET BROMINE** - Serves for water treatment.
- **PANELING** - If this option is chosen, it includes:
  Thermally insulated bottom with a closed plastic base plate - this protects the technology from moisture. Easy to assemble, allowing the pool to not sit directly on the ground, and the **electrical wiring** to be easily laid under the bottom.
  Note: The mains connection may only be carried out by a qualified electrician and must be permanently wired into the house installation.
- **EASY FILLING AND DRAINING** - Filling is possible through a garden hose. For draining, a **1“ connection** is provided.
- **THERMAL COVER**
  Available in different colors.
- **ADDITIONAL INSULATION OF THE SIDE PANELING** - Available as an option.
- **STEPS IN THE SELECTED PANELING COLOR** - Available as an option.

YOUR OUTDOOR SPA

MADE BY KOLLER

EQUIPMENT

Advanced Nozzle Technology from Koller

All nozzles used in our jets are internally threaded and the covers are made of colored-through plastic material, making them highly resistant to scratches and the effects of UV radiation. Nozzle sets of the same size can be exchanged using special keys.

Super Jet Small

Super Jet Small rotating

Mini Jet

Mini Jet rotating

Future Jet

Air Jet

Super Jet Small
Powerful water jet stream that can add air via an Air controller. The nozzle is adjustable and interchangeable via ball joints.

Super Jet Small rotating
Rotating water massage jet that disperses water over a wide area, providing a gentle but intense massage. This nozzle is individually adjustable through ball joints.

Mini Jet
Vitalizing pinpoint water massage stream, which can also add air via an air controller. The nozzle is individually adjustable via ball joints.

Mini Jet rotating
Gently rotating water massage jet that hits the body over a wide surface area, offering a pleasant yet intense massage experience. The nozzle is adjustable via ball joints.

Future Jet
The nozzle indulges with seven different pleasant water massage streams.

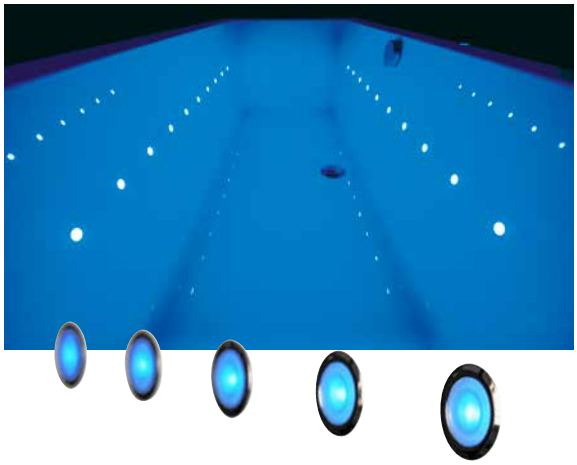

Air Jet
The air generated by the blower creates an invigorating bubble jet. This nozzle can be controlled via the control unit (Poolmaster).

The Material

Our high-quality outdoor SPAs are made of sanitary acrylic with fiberglass reinforcement. Sanitary acrylic is extremely stable and easy to clean, and the surface can be treated with common, mild household cleaners.

For additional heat insulation, the SPA pool is reinforced with PU foam – this insulation ensures the water stays warm longer.

LED RGB color light system - LED effect light chain

With the LED effect light string, you can wonderfully disconnect from the daily grind. As you relax in your SPA, a color light therapy unfolds its positive effects on your body, mind, and soul optimally. This unique lighting experience can be controlled and also halted via the control unit (Poolmaster).

If you wish to immerse your pool in a single color, you can choose from 7 basic colors: white, dark blue, blue, green, yellow, red, and violet.

The large number of small RGB light points distributed over the tub results in an expansive distribution of light.

Mini LED RGB spa lights

The LED RGB spa lights create a wonderful, relaxed ambiance. They produce gently changing colors, as well as a calm, low-stimulation atmosphere. This unique lighting experience can be controlled and also stopped via the control unit (Poolmaster).

If you wish to bathe your pool in a single color, you can choose from 7 fundamental colors: white, dark blue, blue, green, yellow, red, and violet.

The LED RGB spa lights are not installed in all models and work in parallel with the LED effect light chain. For information on where and how many are installed, please refer to the "Technical Data."

Heater

The 3,000-watt heater ensures that you can easily achieve your desired temperature.

Using the control panel (Poolmaster), the temperature can be adjusted in 0.5 °C increments for maximum comfort.

You can choose between two temperature ranges:
Standard mode: from 25.0 to 42.0 °C
Eco mode: from 10.0 to 30.0 °C

MODEL OVERVIEW

Our high-quality OUTDOOR SPAs are available in eight versions – from 2-seater to 4-seater models.

POSEIDON 2 2

2000 x 1350 x 850 mm

32 JETS

Power connection: 230 volts

There is no power connection on this model necessary

OPTIONAL EXTRAS

KOLLER Milk System

When the Milk System is active for approximately 20 to 30 seconds, you can observe at the Milk inlet jets how the bath water becomes enriched with countless microscopic air bubbles, giving the water a milky appearance – hence the name Milk. The diffusion throughout the tub is particularly striking due to the white hue.

These microscopic bubbles gently caress your body, ensuring that your skin receives a high level of oxygen and promoting the regeneration of skin cells.

Oxygen: the source of life, even for your skin.
Oxygen is essential for our skin and its daily regeneration. Without sufficient oxygen, the skin can quickly appear tired and dull.

Order No.	suitable for
OUT-ZBMS-20	Posidon2 , Dream Bay2
OUT-ZBMS-30	Posidon3 , Dream Bay3
OUT-ZBMS-40	Posidon4 , Dream Bay4

Example: Dream Bay 4 Neck Jets

Neck Jets

For the models Poseidon 3 and Dream Bay 3, the seat comes with 3 neck jets. In the models Poseidon 4 and Dream Bay 4, the seat includes 4 neck jets beside the surface skimmer.

The size and number of neck jets are fixed for these models and cannot be changed.

Order No.	suitable for
OUT-ZBNJET-30	Posidon3 , Dream Bay3
OUT-ZBNJET-40	Posidon4 , Dream Bay4

OPTIONAL EXTRAS

Additional Air Jets (2 Blowers)

Since the „Dream Bay 4“ model does not include air jets on the second lounger, you can order these as an optional extra.
The arrangement of the air jets will be as shown in the photo.

Order No.	suitable for
OUT-ZBGRB2-40	Dream Bay4

Additional Insulation

The extra insulation, handcrafted for your tub, positively affects energy consumption. With it, nothing stands in the way of energy-saving bubbling.

If the cladding option is selected, it includes the following features:

Thermally insulated base with a closed plastic bottom panel – this protects the technical components from rodents. Feet are also installed, allowing the pool to stand slightly above the ground, which makes it easier to route the power supply cable.

Note: The electrical connection may only be carried out by a qualified electrician and must be permanently hardwired to the building's electrical system.

COVER

Attachment Strap

Handle Loop

Thermal Cover

Our high-quality thermal cover provides excellent top insulation and protects your Outdoor SPA from contamination. Heat loss over the water surface is kept extremely low.

Please note that the thermal cover is not a surface for placing objects or lying on, as the highly insulating foam core would break. Handle loops make it easier to handle the cover. The cover can also be secured with fastening straps.

The counterparts (closures) for the fastening straps are not installed and are left to the customer. The closures are supplied loose with screws.

YOUR OUTDOOR SPA

MADE BY KOLLER

SINCE 1978

QUALITY FROM OUR OWN PRODUCTION

The company Koller, founded and based in Austria, has a long history dating back to 1978, marked by innovation. As a customer, rely on high-quality components that we develop and produce ourselves.

In the production of our Outdoor SPAs, we largely use products from our own production.

This in turn gives you, the customer, the certainty of trusting the right manufacturer who also offers competent „After Sales“ service.
