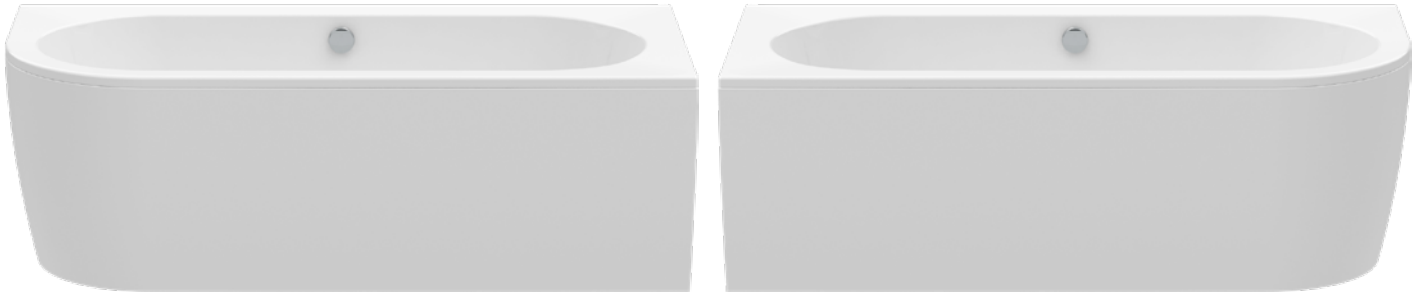
ELEGANT, SEMI-FREESTANDING BATHTUB WITH AIR AND WATER MASSAGE

A relaxing bath in pleasantly warm water is, for many, the epitome of relaxation.

In the semi-freestanding bathtub made of black and white sanitary acrylic, you can leave behind everyday stress and indulge in the 18 integrated air and water massage jets. The stylish shape of the bathtub, with dimensions of 180x80 cm, adds an elegant touch to your bathroom and transforms it into a wellness oasis.

This bathtub is available with or without whirlpool function

All semi-freestanding bathtubs are available in white/white and black/white, as well as in right-left versions.



SYSTEMS

AND THEIR ADDITIONAL OPTIONS

Gentle bubbling, invigorating tingling. The **POSITIVE EFFECT** of a massage on the human body has been known since ancient times.

Body massage **IMPROVES CIRCULATION**, relaxes muscles, and helps us cope with stress.

In the 1970s, we pioneered water technology by building the first whirlpool with jets and pumps.

We interpret our invention in our own way, with various technically sophisticated versions.

The special thing about a whirlpool is its relaxing bubbling effect. Combined with atmospheric lighting, it transforms your bathroom into a wellness oasis for body and soul.

Almost any bathtub can be technically designed and equipped as a whirlpool.

The FLATLINE jets developed by KOLLER increase whirlpool comfort. These jets are flatter than a coin, making them barely noticeable.

Our jets are made of high-quality chrome-plated brass, making them more durable and of higher quality than conventional jets.

ADDITIONAL OPTIONS for your whirlpool

With these additional features, you can enhance the comfort of your whirlpool and create a unique ambiance in your bathroom.

LED LIGHT CHAIN

This goes through 256 colors in a specific rhythm, providing both relaxing and stimulating effects.
It is recommended to turn off the room lights and enjoy the light display.

The stop function pauses the rhythm – only the selected light color remains illuminated.

DISINFECTION SYSTEM

The automatic disinfection system allows for whirlpool cleaning at the push of a button.

KOLLER MILK

A treat for your skin. This innovation refines the water and is compatible with all common whirlpool systems.

Through a special high-pressure pump and a generator that creates the desired milk effect, the oxygen content in the 100% pure water is increased – without additives.

This ensures optimal hydration for the skin, preventing dryness.

INTEGRATED BATHTUB FILLER

Bathtub filler with aerator, a special water jet regulator. If the bathtub rim is wide enough, a rim-mounted faucet can be integrated directly.

THE SYSTEMS IN DIRECT COMPARISON

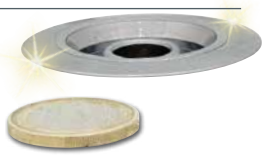
THE JETS



FLATLINE *[impressive, super flat, geometry of the jets]*

Our high-quality in-house manufactured Flatline jets and whirlpool components ensure a real feeling of wellness. Depending on the system selected, gentle or invigorating jets of water massage your body - making your relaxing bath a healthy feel-good experience.

The ultimate bubble experience!

OUTDOOR SPA

RELAXATION IN EVERY SEASON

After a long day at work, a **SPA POOL from KOLLER** provides the best way to relax at home, whether in your own garden or on your private terrace.

Thanks to our long-standing experience as a manufacturer of whirlpool components, we prioritize **QUALITY** and **SERVICE**. **Made in AUSTRIA**. We have the right pool for your needs—whether it's indoors, on a terrace, or in your garden.

SPA Pools by KOLLER offer the soothing pleasure of a massage. With built-in jets, you can target each part of the body individually to relieve muscle cramps. Enjoy the interplay of water and/or air massage jets.

You can set the perfect temperature yourself—a **LED lighting** system with color change or single colors creates a special ambiance. In your own wellness oasis, you escape the stress and hustle of everyday life. It's good for the body, mind, and soul.

In today's fast-paced world, time often dictates our pace, but in the **SPA POOL**, you, the customer, decide how long to enjoy the experience. Relax from everyday life, loosen muscles, reduce stress, unwind after sports, color light therapy—to harmonize body and soul.

The **SPA POOL models from KOLLER** offer back, neck, shoulder, leg, and foot massage jets depending on the configuration.

Koller Milk Therapy—a true fountain of youth for your skin and much more that you can enjoy with a **SPA POOL from KOLLER**.

OUTDO

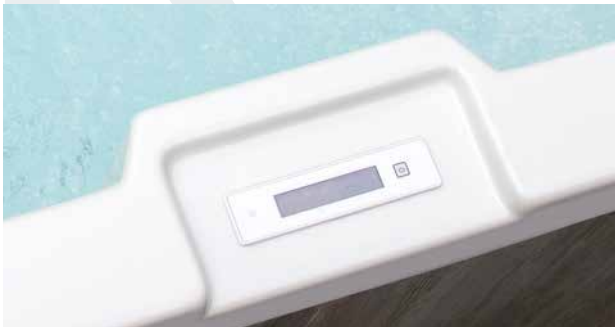
Our high-quality OUTDOOR SPAs are available
in 8 versions – from 2-seaters to 5-seaters.

A private outdoor whirlpool offers pure relaxation in the fresh air and allows you to enjoy the benefits of this pool year-round in your own home. Regardless of the weather, you can quickly leave behind the stresses of everyday life and treat yourself and your family to something special. A place for shared RELAXATION and COMMUNICATION.

You can find all models and detailed descriptions in our OUTDOOR SPA brochure.

THE BENEFITS OF OUR SPAS

- **ALL OUR SPA POOLS** are built according to the requirements of the European standard **EN 17125**.
- **HIGH-QUALITY COMPONENTS AND TECHNOLOGY** - Produced and installed by a leading manufacturer of whirlpool technology.
- **GUARANTEED SERVICE PERFORMANCE** - Within Austria, we offer reliable service for our POOLS.
- **WINTER-PROOF** - Thanks to the specially designed **residual water draining**, possible water damage can be averted during winterization.
- **„POOLMASTER" - SPA CONTROL** made easy through **a water-resistant touch screen**.
- **STARTER SET BROMINE** - Serves for water treatment.
- **PANELING** - If this option is chosen, it includes **a fold-down lid: Thermally insulated bottom** with a closed plastic base plate - this protects the technology from moisture. Easy to assemble, allowing the pool to not sit directly on the ground, and the **electrical wiring** to be easily laid under the bottom.
- **EASY FILLING AND DRAINING** - Filling is possible through a garden hose. For draining, a **1" connection** is provided.
- **THERMAL COVER** - Available in different colors.
- **ADDITIONAL INSULATION OF THE SIDE PANELING** - Available as an option.
- **STEPS IN THE SELECTED PANELING COLOR** - Available as an option.
- **SPARE PART SUPPLY** - The components used come from our own production and are thus available over the years.



HOT TUB

THE ALTERNATIVE TO THE OUTDOOR SPA

WHY A HOT TUB FROM KOLLER WHIRL-SYSTEMS?

All our models with an integrated, rust-free stainless steel stove can be used year-round. Our high-quality HOT TUBs are available in various sizes – from "2-seater to 6-seater".

Whether on the terrace, in the garden, or under the open sky, the HOT TUB is a true eye-catcher.

If the HOT TUB is operated in the basic version (without whirl options), all you need is firewood for heating – nothing else.

An electrical connection is only necessary if you integrate whirl options.

The high-performance stainless steel wood stove heats the HOT TUB to a comfortable temperature of 37 to 40 degrees Celsius in 2.5 to 3.5 hours (depending on the size of the HOT TUB, outside temperature, wood type, and firing intensity).

HOT

We offer 4 different models of our hot tubs –
available in natural spruce and thermowood.

Whether on the terrace, in the garden, or under the open sky –
the HOT TUB is a real eye-catcher and provides a wellness experience for young and old.
If the HOT TUB is operated in the basic version (without whirl options),
all you need is firewood for heating – nothing else.

You can find all models and detailed descriptions in our HOT TUB brochure.

THE ADVANTAGES OF OUR HOT TUBS

- **ALL OUR HOT TUBS** are built according to the requirements of the European Standard EN 17125.

- **HIGH-QUALITY COMPONENTS AND TECHNOLOGY**
  Manufactured and installed by the leading manufacturer of whirlpool technology

- **RELIABLE SERVICE**
  We offer reliable service within Austria.

- **WINTER-PROOF**
  Specially designed residual water drainage allows for complete emptying of the pipes.

- **CLADDING**
  If the cladding option is chosen, you can select between 2 variants (see options).

- **EASY FILLING AND DRAINING**
  Filling can be done via a garden hose.
  A 1″ connection is provided for draining.

- **THERMAL COVER DARK GREY AVAILABLE** Selectable as an option

- **STAIRS IN SELECTED CLADDING STYLE AVAILABLE** Selectable as an option

- **SPARE PART AVAILABILITY**
  The components used are manufactured in-house and are therefore available for years to come
