**Air and water jet function**

## THE MAGIC JET NOZZLE BY KOLLER: ONE JET, THREE FUNCTIONS

### Revolutionary Innovation for the Ultimate Wellness Experience!

The sophisticated interplay between jet pump and air blower in the Koller Magic Jet creates a massage experience that sets new standards. Experience the perfect symbiosis of technology and well-being!

#### TRIPLE FUNCTIONALITY – TRIPLE PLEASURE:

- 1. Air Mode:** As a classic air jet, it produces powerful, stimulating air bubbles for an invigorating massage.
- 2. Water Mode:** As a pure water jet, it pampers with fine, targeted water streams for a precise deep massage.
- 3. Magic Effect:** The interplay of both systems unleashes its full potential: Large-volume air bubbles are divided into micro-bubbles by strategically arranged water jets outside the nozzle – a unique massage experience that defies categorization. Feel the difference!

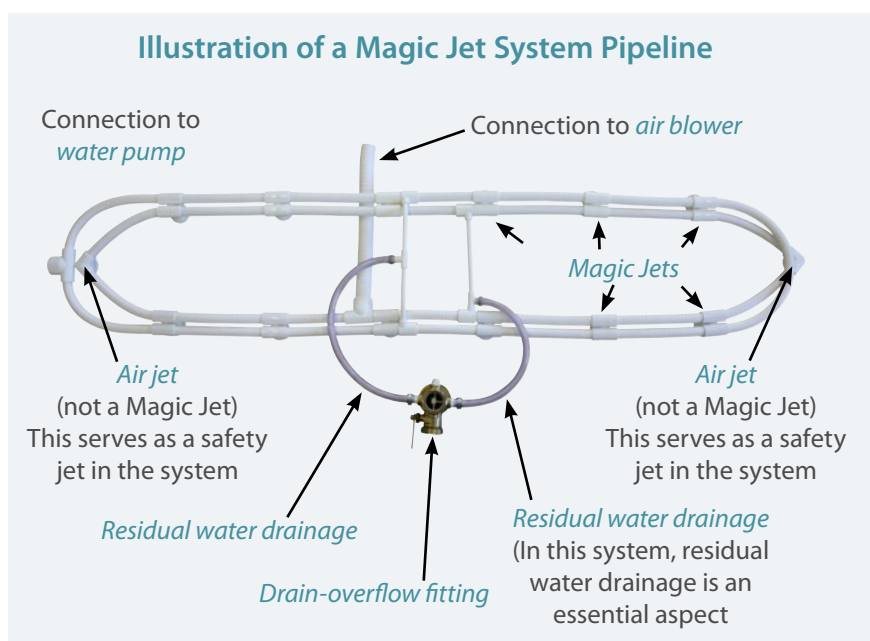

#### DESIGN VARIETY AND APPLICATION:

Discover the Magic Jet nozzle in various designs: From classic-elegant brass to modern plastic variants. With our innovative “Flatline Technology,” the jets blend harmoniously into any whirlpool environment. The Magic Jet nozzle is specially designed for the floor area of a whirlpool tub, where it develops its full effect.

#### SUSTAINABILITY AND INNOVATION: OUR PROMISE

At Koller, we live environmentally conscious practices: resource-conserving production methods, sustainable materials, short transport routes, and energy-efficient technologies. Our production sites in the heart of Europe significantly minimize the carbon footprint of all Koller products – a measurable advantage over competitors from overseas. With Koller, you choose premium wellness technology that takes responsibility for our planet.

**MAGIC JET – THE SPARKLING ONE:** For customers who seek the extraordinary and value sustainability.
