

KOLLER AQUA ACTIVE

REVITALISES Your Water

**...reduces
limescale...**

**...transforms your water into an
energising element...**

KOLLER AQUA ACTIVE

The water invigorated by **KOLLER AQUA ACTIVE** has a milder taste and many positive effects. The enhanced water solubility results in a more effective use of shampoo, shower gel and suchlike, which can therefore be used sparingly. After towel drying, your skin feels extremely smooth and the sensation is akin to having applied moisturiser.

KOLLER AQUA ACTIVE is fixed onto the exit of water taps.

In this way it exerts its full power directly before application and does not lose its effect, while travelling through long water pipes or while stationary, as conventional systems do.

Effectiveness:

Water treatment with **magnets** verifiably reduces limescale.

The alteration of the crystallisation properties and of the structure of the deposit-forming water elements results in fewer adherent compounds. This is how so-called 'soft' water is created.

'Dextrorotary' water is invigorated tap water (according to Viktor Schaubberger). This energising process transforms the radial force of the water into a positive 'dextrorotary' movement. The emerging forces dissolve any existing negative structures, add new reviving energy to the water and bring it closer to its original spring water quality.

The natural scientist Viktor Schaubberger recognised the basis for a progressive vitality in the whirling motion of the water. It is possible to furnish energy and new information to 'dead' tap water.

Active water is living water!

Effective microorganisms (EM) boost your vitality and health.

EM-ceramics are based on mixed cultures of valuable effective microorganisms with strong antioxidant powers, which have a healthy and regenerating effect on humans, animals and the natural environment.

Hence, vitality and wellbeing are boosted and degenerative, pathogenic processes are prevented. The lifespan of all organic substances is considerably increased.

Healing stones considerably increase your well-being. In recent years, healing stones have become our constant companions. Not only do we carry them with us daily or decorate our homes with them, now they are also used in our Koller whirlpools to vigilantly increase energy:

- **Amethyst** - brings lasting calm and inner peace. It provides relief from migraines and bruises, helps with low blood pressure and concentration. The stone promotes sobriety by day, while peaceful sleep and relaxing dreams at night.
- **Rock crystal** - helps to soothe inflammation, has a generally invigorating effect and promotes inner balance. It alleviates ailments related to slipped discs and cardiovascular problems. Its positive energy also helps to clear emotional blockages.
- **Rose quartz** - is the most important healing stone to dissolve harmful rays and to improve circulation. It is successfully applied to alleviate sleeping disorders and nightmares and is especially beneficial for restless children. It frees your mind and unites body and soul.

For every area of use there is a specially developed **KOLLER AQUA ACTIVE**.

3 Examples and details

Examples for vacuum covers with EFFECTIVE MICROORGANISMS (EM)

Cover with EFFECTIVE MICROORGANISMS (EM) for drain and overflows

Also suitable for standard bathtubs.

Jet with integrated magnet for the reduction of limescale

Vacuum cover with EFFECTIVE MICROORGANISMS (EM) and MAGNET

Vacuum fitting with EM and Magnet

Drain and overflow with filling and Koller Aqua Active Water Vitaliser with magnets and whirl discs to create dextrorotary water

Reduces limescale

Also suitable for standard bathtubs.

Tee Aqua Active with integrated magnet and whirl discs

KOLLER AQUA ACTIVE Magic Box for the suction line

EFFECTIVE MICROORGANISMS (EM) – Magnets – Whirl discs – Various healing stones

Various models are available.

KOLLER AQUA ACTIVE Vitaliser including EFFECTIVE MICROORGANISMS (EM) and MAGNET, also available with various healing stones
