# LEADERSHIP ROLE IN WHIRLPOOL SYSTEMS FOR OVER 45 YEARS

Koller Whirlpool was founded 1978 and rapidly developed into an international successful company. Koller Whirlpool was one of the first companies worldwide to invent whirlpool technology for bathtubs and to use material made of brass. With over 750 certificates, Koller Whirlpool is a brand for innovative technology – in the past, present and future.

**100% in-house development and -production.**  
We stand for proven Koller quality and produce the complete product range solely in our factories in the European zone.

**Complete solutions from pumps to lighting.**  
Koller products are perfectly matched in terms of their appearance and mechanics and are developed in close cooperation with our customer and partners. We offer complete solutions regarding whirlpool and spa!

#### **Koller quality guarantee.**

Trust is a good thing, but control is a better one. Therefore our products pass a schematic plan and are examined carefully before shipment.

We look forward to continued good cooperation and partnership and mutual success!

# BRING ATMOSPHERE INTO YOUR BATHROOM

## EFFECT LIGHT CHAIN

*During a relaxing bath, color light therapy optimally unfolds its positive effect on body, mind and soul.*

Colored LED lights create gently changing colors and a calm and non-irritating atmosphere.

You can have the effect light chain installed in any tub independently of the whirlpool system. It can be operated using a short-stroke button.

Should a point of light fail, you can quickly and easily replace it yourself from the inside of the tub.
